

Perfect Lie

Vampires Everywhere

(You and I, we are the perfect lie, we are the perfect lie)

I bet you think it's okay, to play your wicked games
I know you think my heart is plastic, wrapped in blacked out tape

You really want to know the truth, you want to know what to do
Take a look inside your head, and let it consume you
You wanna really want to know it all
You wanna to see the rise and fall
Take a look inside your head, and let it consume you

You and I, we are the perfect lie, we are the perfect lie
So dead inside, we are the perfect lie, we are the perfect lie

(We are, we are, we are, we are the perfect lie)
(We are, we are, we are, we are the perfect lie)

You know it's always the same, the way you medicate
I bet you think your demons laughter will make it all okay

You really wanna know the truth, you want to know what to do
Take a look inside your head, and let it consume you
You wanna really want to know it all
You wanna to see the rise and fall
Take a look inside your head, and let it consume you

You and I, we are the perfect lie, we are the perfect lie
So dead inside, we are the perfect lie, we are the perfect lie

(We are, we are, we are, we are the perfect lie)
(We are, we are, we are, we are the perfect lie)

You want to use me, you want to do me, but the love doesn't come for free
You want to use me, you want to do me, but the love doesn't come for free
You want to use me, you want to do me, but the love doesn't come for free
You want to use me, you want to do me, but the love doesn't come for free

You and I, we are the perfect lie, we are the perfect lie
So dead inside, we are the perfect lie, we are the perfect lie

(We are, we are, we are, we are the perfect lie)
(We are, we are, we are, we are the perfect lie)
