

# Whore

## Low

You will get your reward  
You will get your reward(You will get your reward)  
What is the whore you're living for?  
(You will get your reward)  
Is it so wrong to think there's more?(You will get your reward)  
There's always one worth waiting for  
(You will get your reward)  
What is the whore you're living for?You fill the house with bells  
But who can live like that?  
You wanna speak like angels  
But you can't(You will get your reward)  
What is the whore you're living for?  
(You will get your reward)  
What is the whore you're living for?You will get your reward  
You will get your reward
