

# A Rose Is A Rose

## Meredith Edwards

You might say she started out  
Without what folks round here  
    Call a fair shake  
A little girl with no shoes on her feet  
    Tangled hair  
    Not a nickel to her name  
    And not a careBut no matter what  
Her smile came shining through[Chorus]  
    Cause a rose is a rose is a rose  
    And everybody knows a little  
Sunlight and room to grow was all she needed  
    And seeing her face in town was like  
    Spring time coming around well  
    I guess it just goes to show  
A rose is a rose is a roseTommy lee always knew  
    What he would do  
Cause she moved him deep down in his heart  
    And everybody smiled at such a pair  
    Could they last  
    With two different worlds  
And sides of the tracksBut no matter what  
Their love came shining through[Chorus]A rose is a rose  
    It always finds a way to shine  
    Beauty is a state of mind  
And seeing her face in town was like  
    Spring time coming around well  
    I guess it just goes to show  
    A rose is a rose is a rose
