Chained

Pugsley Buzzard

Do unto others
As you have them do to you
It would make our life so easy
Yeah, there's gold in that rule
But money is a God
For so many in this world
Yeah, they wanna own the souls
Of every man, woman, boy and girl
It's sad but true to see
It is them against you and me
But we are chained
Chained, chained for life
We are chained
Chained till we die
And together we will fight
For what we know is right
Yeah we are chained
Chained, chained for life
We are chained, chained, chained, chained
We are chained, chained, chained, chained
Angels walk among us
But there are devils out there too
And they cast their evil on us
Hoping we'll do what they want us to do
Turnin' love into hatred
Makin' dreams become untrue
And the only thing that's sacred
Is the bond between me and you
It's sad but true to see
It is them against you and me
And we are chained

Chained, chained for life
We are chained
Chained till we die
And together we will fight
For what we know is right
Chained
Chained, chained for life

We are chained, chained, chained, chained
We are chained, chained, chained, chained
There's evil all around us
But I don't fear it
It's time to raise our voices
And let them bastards hear it, watch out
And together we will fight
For what we know is right
We are chained, chained, chained for life
We are chained, chained, chained, chained
Chained
Chained, chained for life
We are chained
Chained till we die
And together we will fight
For what we know is right
We are chained
Chained, chained for life
We are chained, chained for life
We are chained, chained for life
We are chained, chained, chained, chained, chained
We are chained, chained, chained, chained, chained
We are chained, chained, chained, chained, chained
We are chained, chained, chained, chained
