We All Fall Down

The Explosion

Get up, get out of my life
Just leave me alone
I wish I could take your money
And burn it down with your homeI'm sorry, I didn't mean it
Did I really say that aloud?
I'll take anything you've got
I'm really not that proudWe all fall down when it's little kid dreams
With grown up schemes, little kid dreams
With grown up schemesWe all fall down when it's little kid dreams
With grown up schemes, little kid dreams
With grown up schemesCome on, come out with it now
We're really not that close
Dotted lines and dollar signs
Are the only thing that you knowI'm sorry I didn't mean it
I'm with you 'til the end
I'll keep you closer to me
Than any of my friendsWe all fall down when it's little kid dreams
With grown up schemes, little kid dreams
With grown up schemesWe all fall down when it's little kid dreams
With grown up schemes, little kid dreams
With grown up schemesBack me up into a corner
And it all comes crashing down
Split second, quick reaction
I've turned the tables nowIt doesn't matter whatever happens
I'm with you 'til the en
And I'll keep you closer to me
Than any of my, any of my friendsWe all fall down when it's little kid dreams
With grown up schemes, little kid dreams
With grown up schemesWe all fall down when it's little kid dreams
With grown up schemes, little kid dreams
With grown up schemes, we all fall down
We all fall down
