

Now's the Time

LaFee

I've never thought i could get this far
i still hear them say
No chance, no way And they said, she ain't too smart
she ain't got what it takes,
that girl is bound to fail
i almost bought that shit
but i ain't gonna quit*Now's the time, the time to lay it on the line
The time for me to say and do whatever's on my mind
i will fight for my right
will defend my way of life
come hell or high water
now's the time*In the eye of the storm
but i ain't scared
'cause after the storm
there'll be calm somewhere. An army of thousands
pissin' on my dream
i don't give a damn
'casue i have to make them see...
I never gave a shit
and i ain't gonna quit*Now's the time, the time to lay it on the line
The time for me to say and do whatever's on my mind
i will fight for my right
will defend my way of life
come hell or high water
now's the time
The time has come for me to shine
whatever they may say
ain't gonna break my stride
i will make the world see you can realize your dreams
come hell or high water now's the time*Now's the time, the time to lay it on the line
The time for me to say and do whatever's on my mind
i will fight for my right
will defend my way of life
come hell or high water
now's the time
The time has come for me to shine
whatever they may say
ain't gonna break my stride
i will make the world see you can realize your dreams

come hell or high water now's the time*Now's the time, the time to lay it on the line
The time for me to say and do whatever's on my mind
i will fight for my right
will defend my way of life
come hell or high water
now's the time
