Surprise Me

SWV

It's alright baby, yes it is, ohIt's alright to come hold me
Don't be shy just love me
The minute I close my eyes, surprise me
With your ooh, aah, oh, woah
(Don't be shy, don't be shy)I need someone to hold
Someone who will make my body
(Feel so good that it starts to tingle, oh)
If you give me the chance
(The chance)
I will take romance
(Romance)
To new heights, new levels of ecstasy, oohIt's alright to come hold me
Don't be shy just love me
The minute I close my eyes, surprise me
With your ooh, aah, oh, woahIt's alright to come hold me
Don't be shy just love me
The minute I close my eyes, surprise me
With your ooh, aah, oh, woahMakin' love in the rain is my secret fantasy
And with you I can act out my pleasures
(Thinking of a rendezvous makes me imagine what we're gonna do)
Ooh, the rain is drippin' on you I love it running down your face
Ooh, from your chest, as it goes down your leg, it's alrightIt's alright to come hold me
Don't be shy just love me
The minute I close my eyes, surprise me
With your ooh, aah, oh, woahIt's alright to come hold me
Don't be shy just love me
The minute I close my eyes, surprise me
With your ooh, aah, oh, woahAll my emptiness
Will be fulfilled with your caress
And there's no more lonely nights
You hold me tight, you love me right, it's alrightIt's alright to come hold me
Don't be shy just love me
The minute I close my eyes, surprise me
With your ooh, aah, oh, woahIt's alright to come hold me
Don't be shy just love me
The minute I close my eyes, surprise me
With your ooh, aah, oh, woahIt's alright to come hold me
Don't be shy just love me
The minute I close my eyes, surprise me

With your ooh, aah, oh, woahIt's alright to come hold me
Don't be shy just love me
The minute I close my eyes, surprise me
With your ooh, aah, oh, woahIt's alright to come hold me
Don't be shy just love me
The minute I close my eyes, surprise me
With your ooh, aah, oh, woahIt's alright to come hold me
Don't be shy just love me
The minute I close my eyes, surprise me
With your ooh, aah, oh, woah
