

Are You Calling

Flagship

You've got it coming for ya
all the work's been done
so celebrate the time's when
your world was calmhowling at the moon still
at the white white ghost
seeing for the first time
your violent soul(and) All because of faith
you know it's right
you coincide with fate
and you feel it's right
i was gonna find you
lying in the cave
bleeding in the water
been carrying on for dayshowling at the moon still
at the white white ghost
singing since the fall of man
God bless your soul(and) all because of faith
you know it's right
you coincide with fate
and you feel it's rightwhen courage calls a name
the life will soon be changed
from fleeting thrills at night
the choice on what to sayyou coincide
you coincideare you calling
(x7)
calling
