

# A Pretty Good Year

Luke Metzler

Its been a pretty good year  
Except for the time that your boyfriend walked out in the middle of the night  
But hey what the hell who needs love anyway  
When we're all buying time until our dying day

Its been a pretty good year  
Except for the way that your job pays for nothing  
Then your ma passed away  
But you got what ya got  
Till you drank it away  
With your friends at the bar who don't know your last name

Happy New Year  
Speak for yourself  
Well I've never thought highly of wishes to health  
Cuz we're all getting sicker in the skin and the soul  
And don't you remind me about it anymore

Its been a pretty good year  
But next year will be better  
This year's the one where we turn it around  
A pretty good year  
I know we can do better  
This time we'll pick ourselves up off the ground

Its been a pretty good year  
Except for the pinch of the world on your pennies  
And the won't give an inch  
But hey love is free if you only had some to give  
But its hard to find love when you're finding a way to live

Happy New Year  
Speak for yourself  
Well I never thought highly of wishes to health  
Cuz we're all getting sicker in the skin and the soul  
And don't you remind me about it anymore

Its been a pretty good year  
But next year will be better  
This year's the one where we turn it around

A pretty good year, I know we can do better  
This time we'll pick ourselves up off the ground

Its been a pretty bad year  
My sister is dead  
She was killed by the cancer  
That grew in her head  
Everyone's tired, yeah we all got our shit  
And next year we'll all have a lot more of it

Its been a pretty bad year  
But next year will be better  
This year's the one where we turn it around  
A fucking bad year, I know we can do better  
This time we'll pick ourselves up off -

A pretty good year  
But next year will be better  
This year's the one where we turn it around  
A pretty good year, I know we can do better  
This time we'll pick ourselves up off the ground

This time we'll pick ourselves up off the ground

This time we'll pick ourselves up off the ground
