

# Conception of Sin

## Sinister

Drowning  
Choke on it  
Embrace the current  
Recognize the high  
Instant frame deniedSubmerged  
Captured by a turning pivot  
Fluids leave the drain  
Spilled in after lifeDevious kill  
Gentle reap what's sawn  
melt into the boiling bloodDeparting from accepted ways  
Overcome by superior force  
Oblique answers, direct questions  
His tone became menacingStream of consciousness  
Flow of thought  
Ill predictions  
Lambent tongues of flamesOminous rumbling of discontent  
His black heart connected another black deed  
Dark undercurrent of hostility  
Characterized by immortal deceitTongues  
Of flames  
Alongside  
The Conception of sinDevious kill  
Gentle reap what's sawn  
melt into the boiling bloodStream of consciousness  
Flow of thought  
Ill predictions  
Lambent tongues of flames[solo: Pascal]Choke on it  
Embrace the current  
Recognize the high  
Instant frame deniedSubmerged  
Captured by a turning pivot  
Fluids leave the drain  
Spilled in after lifeStream of consciousness  
Flow of thought  
Ill predictions  
Lambent tongues of flames
