

Higher Place of Praise

[CeCe Winans](#)

Now there a place that's blessed
Where we find happiness
A place of Sabbath rest
A higher place of praise, praise We lift our hands and we learn to dance and sing
We've got the notion, then where going through the motions
Now tell me really, it that victory, tell me But there's I found and, it's a much higher mountain
It wakes me early morning, and I know it's Zion calling
Me into worship to give me live daily, daily Now mmm nice, not the noise when times have come or stop
My spirit my sole and my flesh
Needs this place of praise, praise Now there a place that's blessed
Where we find happiness
A place a savior, a higher place of praise Now here's the story, no flesh and glory
It is awesome presence, it's his holy name we reverence
This place is precious, powerful and pure, so pure Now mmm nice, not the noise when times have come or stop
My spirit, my sole and my flesh
Needs this place of praise, praise Now there a place that's blessed
Where we find happiness
A place a savior, a higher place of praise Now there a place that's blessed
Where we find happiness
A place a savior, a higher place of praise, praise, praise A higher place, a higher place I've found
I've found it, takes me to higher ground
The brightness of your face, the brightness of your face
Gives me a praise I wanna go higher, higher, higher, higher, higher
I wanna go home, I wanna go higher
The brightness of your face, give me a higher praise
A higher place I've found, a higher place I've found So glad I found it, takes me to higher ground
The brightness of your face, gives me a higher praise
Higher praise, higher, I wanna go home
