Motivation of Man

Iced Earth

At last we will claim what is rightfully ours
Absolute power and absolute knowledge
All galaxies and the subjects there in
Will kneel before the human raceUnlimited power and unlimited knowledge
Mankind will be one with the architect of the universeAt last within my grasp
We are one step closer to cleansing
We claim the universe
Causing galaxies to cowerUnlimited power, unlimited knowledge for
Man will no longer be seen as primitive or inferior
Unlimited power, unlimited knowledge for man
