

Old Flame

[Juice Newton](#)

Guess I should accept the call
But I really dont know what to say
The operator wont let me talk at all
And she says you want me to pay
Oh well it aint nothin new
It fits right with my picture of you
But tonight youre gonna find out
What these tears are all aboutChorus:
cause this old flame went out
You never thought youd be the one
In the darkness now
I think you know what Im talkin about
This old flame went outYou went to get cigarettes
That was last july, you didnt get home yet
And now you expect me to hear you out
You call me collect, there aint no doubtRepeat chorusWhat do you mean, how can I do this to you?
Lets not forget who walked out on whoRepeat chorus
