Gorefest

Gorefest

Deceased has been embalmed
Made ready for the family
The outside is same
That's only visualFormaldehyde been used
The organs have been gone
And the bucket of bowels
Is what we'll dine uponSluts masturbating
With bones of the deceased
Their guts no longer needed
Are such delicious meatThe necronymphomaniac who sees the coffin
With the corpse over [Incomprehensible]
[Incomprehensible]
She likes soft and coldShe climbs into the coffin
Starts licking his cock
Sucking it so heavily
That it suddenly comes offSluts masturbating
With bones of the deceased
Their guts no longer needed
Are such delicious meatNecrastration
Deformed dwarfs are juggling
With separated heads
Distorted, morbid onlookers
Never more so gladSteaming pits of defecation
Filled with corprophiliacs
Copulating abominations
A Gorefest at its climaxSluts masturbating
With bones of the deceased
Their guts no longer needed
Are such delicious meat
