What's Coming Over You

Beatsteaks

don't let go
i go down with you
don't let goyou offer and feature
let anyone see you
now this what i'll do
to charm and please you
so how can you stumble
let anyone run you
whatever will come true
what will be will bewhy don't you take your time
to be the next one in line
don't let go, don't let anyone know
what's coming over you
coming over you,coming over you
what's coming over you
coming over youyou're nervous by nature
and just sitting next to
a love and a statue
to look and live up to
so how can you stumble
let anyone run you
whatever will come true
what will be will bewhy don't you take your time
to be the next one in line
don't let go, don't let anyone know
what's coming over you
coming over you,coming over you
what's coming over you
coming over youdon't let go
I go down with you
don't let anyone know
what's coming over youcoming over you
coming over you
coming over you
coming over you
what's coming over you
coming over you
coming over you
