The Pretender

Randy

I don't believe in God
I don't believe in fate
I don't trust governments
And I don't trust the stateNot part of any movement or community
Oh no it's not for meI don't believe in evil
Don't believe in sin
Don't think that good and bad
Is a fight someone can winNot part of any party or society
It's not for meThey say that it's a hard reality
Not for me, the pretender
They say you have to struggle to be free
Well not me, the pretenderThey say that it's a hard reality
Not for me, the pretender
Not for me, my pretend realityI don't believe in evil
I don't believe in sin
I don't think that good and bad
Is a fight someone can winNot part of any party or society
It's not for meThey say that it's a hard reality
Not for me the pretender
They say you have to struggle to be free
Well not me the pretenderThey say that it's a hard reality
Not for me the pretender
Not for me, my pretend reality
My pretend reality, my pretend realityI'm the pretender
