## **Children Of The Night**

## The Blackout

We are the children of the night

We are the children

We are the children of the night

We are the childrenAs daylight fades we celebrate

The end is near, your end is here

The night it brings us our fate

Knee deep in mud, we want your bloodThis isn't love, this is war

This is the night we said we would be fighting for

This isn't love, this is war

This is the night we swore that we would call our ownWe are the children of the night

We are the children

We are the children of the night

We are the childrenThe fire burns into the sky

The sun goes down, your end is here

Lighting eyes in the night

Be one of us, be one of usThis isn't love, this is war

This is the night we said we would be fighting for

This isn't love this is war

This is the night we swore that we would call our ownWe are the children of the night

We are the children

We are the children of the night

We are the childrenWe are the children of the night

We are the children

We are the children of the night

We are the children We are the children of the night

We are the children

We are the children of the night

We are the childrenWe are the children of the night

We are the children

We are the children of the night

We are the children This isn't love, this is war

This is the night we said we would be fighting for We are the children of the night

We are the children

We are the children of the night

We are the childrenWe are the children of the night

We are the children

We are the children of the night

We are the children We are the children of the night

We are the children

We are the children of the night
We are the childrenWe are the children of the night
We are the children
We are the children of the night
We are the children
