Pray For Him

Billy Gilman

Knocked on his door last night, he should have been there
I waited till six p.m., Lord I'm worrying again
Said he messed up something real bad
Whatever it is I'll be thereI'll pray for him, hope he's all right
Feels like he's all alone against the world tonight
But he's gone away, Lord, help me pray for himTold him he's got to believe there's a lot to believe in
Doesn't think he's good enough, says it doesn't matter much
Well, if I were walking in his shoes
He'd be there for me, he'd know what to doI'll pray for him, hope he's all right
Feels like he's all alone against the world tonight
But he's gone away, Lord, help me pray for himWell I've done everything I can do
I leave it in Your hands
Lord it's up to YouI'll pray for him, hope he's all right
Feels like he's all alone against the world tonight
But he's gone away, Lord, help me pray for himOh, pray for him, hope he's all right
Feels like he's all alone against the world tonight
But he's gone away, Lord, help me pray Lord
For he's gone away, Lord, help me pray for him
