

# Secret History

## Jawbox

there is an arsenal,  
and it is possible  
to dim the lights some more  
and hide it from our eyes.  
there is a path to blaze,  
that curves both right and left.  
looked down and saw the ground,  
looked round and cut the trees.  
looked up and saw the sky,  
launched a mission in disguise.  
there is a shining sky,  
and it is possible  
to run the race on earth,  
to patch the wounded ground.  
there is a path to blaze.  
the right path is what is left.
