

Memory Heart

Bear In Heaven

Come to me
Memory
You're making me feel so aloneThe firestorm
Your love parade
A little light in your Black SeaI'm hanging on
Magnetic charm
The chance that you will shine on me
Now close the door
So you can be
The only one with meIt's not easy
with a hole where your heart was
It's not easyIt's not easy
with a hole where your heart was
It's not easyMemory
you're mean to me
The hole inside is getting biggerNow close your eyes
Your tired eyes
They might slip up and tell me everythingYou are you are you are
You are you are alone
It's not easy
with a hole where your heart was
It's not easyIt's not easy
with a hole where your heart was
It's not easy
