

# Forget Him

[RL \(of next\)](#)

Forget him  
Forget him Forget him if he doesnt love you  
Forget him if he doesnt care  
Dont let him tell you that he wants you  
Cause he cant give you love which isnt there Oh, little girl, hes never dreaming of you  
Hell break your heart, you wait and see  
So dont you cry now, just tell him goodbye now  
Forget him and please come home to me Forget him if he doesnt love you  
Forget him if he doesnt care  
Dont let him tell you that he wants you  
Cause he cant give you love which isnt there Oh, little girl, hes never dreaming of you  
Hell break your heart, you wait and see  
So dont you cry now, just tell him goodbye now  
Forget him and please come home to me No, dont you cry now, better tell him goodbye now  
Forget him and please come home to me
