Leaveamessage

Musiq Soulchild

The children need something
With more substance and more meaning
A message intended to leave them
With something much more to believe in
Now it?s cool for us to say, all the things we say and do
All the things we do to express ourselves
But we should try to find a way to bring balance to this hate
And leave a good impression on someone else
'Cause in our world
There isn?t much love goin? around
We should try to give a little bit more
There isn?t much love goin? around
We should try to give a little bit more
Now lovers of this music shouldn?t get so caught up
In all of the rumors and lies
We?re the same as you, we got feelings too
And you know we?re human, just trying to live our lives
There will come a day when the world is gonna change
And then, things will be much better than how they are
Where happiness is the way and joy out weighs the pain
And oh, how I prayed to God that day isn?t far
'Cause in this world
There isn?t much love goin? around
We should try to give a little bit more
There isn?t much love goin? around
We should try to give a little bit more
All we want in this world, we can have through love
All we need in this world, we can get with love
All we got in this world, we can keep through love
All we got to do is just, give a little more love in this world
There isn?t much love goin? around
We should try to give a little bit more
There isn?t much love goin? around
We should try to give a little bit more
There isn?t much love goin? around
We should try to give a little bit more
There isn?t much love goin? around
We should try to give a little bit more
Yo, you?ve reached Musiq?s cell phone

I?m sorry I can?t pick up right now
I?m kinda busy at the moment
But if you leave your name and your number
The whole routine, I?ll get back to you as soon as I can
And if I don?t, don?t get mad, yeah, you too, peace
I?m sorry that I?m not around to
Listen to what you have to say
I hope it wasn?t so important that I
Just had to hear 'cause it couldn?t wait
I wish I knew what it was you wanted
Just to see if there was something that I could do
Oh, I know you probably thinking the worse of me now
But understand that I?m not avoiding you, no, I'm not so
If I don?t call you or come over, it?s only just
'Cause I?ve got so much work to do
So sometime before this song is over
Leave a message and I promise I?ll get back to you
You know how things are some days
My time be moving just way to fast
While you may be thinking, I should put some aside for you
I?m just trying not to let it pass me by
Now I don?t want to take you for granted, no
And please believe that I?m not ignoring you
Well, I guess I can?t expect you to understand it all
But I pray, you don?t take it personal, 'coz it's not
If I don?t call you or come over, it?s only just
'Cause I?ve got so much work to do
So sometime before this song is over
Leave a message and I promise I?ll get back to you
If I don?t call you or come over, it?s only just
'Cause I?ve got so much work to do
So sometime before this song is over
Leave a message and I promise I?ll get back to you
If I don?t call you or come over
So sometime before this song is over
And if I don?t call you or come over
So sometime before this song is over
Back to you
If I don?t call you or come over, it?s only just
'Cause I?ve got so much work to do
So sometime before this song is over
Leave a message and I promise I?ll get back to you
