

The Future Song

[Vanessa Paradis](#)

Life brings on unexpected changes
But we must carry on despite it
Are we gonna try, are we gonna make it
Why is love so very hard, why is peace so very far
I can't make it
The future of our space and time
Is not gonna wither and die
The future of our space and time
Is not gonna say, goodbye
We can't control all our situations
And we can't console underprivileged nations
So why don't we try to make more smiling faces
We're so full of disregard, we feel pain within our hearts
I can't take it
The future of our space and time
Is not gonna wither and die
The future of our space and time
Is not gonna say, goodbye
So I'm calling out, out to all the races
We can't gain control without communication
And we need to learn for future generations
There is future in our stars, there is beauty that is ours
We're gonna make it
The future of our space and time
Is not gonna wither and die
The future of our space and time
Is not gonna say, goodbye
The future of our space and time
Is not gonna say, goodbye
