

To the Sky

Dustin Lynch

If you got it on nine, you got it too low
Crank that ten 'til the Kenwoods blow
Two in the morning ain't late enough
We gon' be here 'til the sun shows up
You had one shot, baby take one more
If you had two, make it three, maybe four
Feeling like you're ten feet off the floor
You know what you came here for Whatever you got to raise up
You can't get it high enough
Your hands or your phone or your cup
Set it off like the 4th Of July
And take it up to the sky
We'll be flying up in the clouds
Like we're never gonna come back down
Like we're running out of runway lights
Gonna take it up to the sky We're gonna touch the stars,
Baby no it ain't that far If you sitting down, get up on your feet
If you're standing up, get up on your seat
If you on your seat, find a girl who don't know you
Spin a little game, get her up on your shoulders
If she wants to dance, give her what you got
Turn a cool night into sunburn hot
If she starts getting that look her in her eye
Take her to the moon at night Whatever you got to raise up
You can't get it high enough
Your hands or your phone or your cup
Set it off like the 4th Of July
Take it up to the sky
We'll be flying up in the clouds
Like we're never gonna come back down
Like we're running out of runway lights
Gonna take it up to the sky We're goin' up to the sky, we're goin' up to the sky
We're goin' up to the sky, we're so high, oh yeah
Whatever you got to raise up Whatever you got to raise up
You can't get it high enough
Your hands or your phone or your cup
Set it off like the 4th Of July
Go on and take it up to the sky
We'll be flying up in the clouds

Like we're never gonna come back down
Like we're running out of runway lights
Gonna take it up to the sky We're gonna touch the stars
Baby, no it ain't that far, come on Go on and take it up to the sky
We'll be flying up in the clouds
Like we're never gonna come back down
Like we're running out of runway lights
Take it up to the sky
