

The Difference

Jonah33

Good and evil decide to coincide inside
The four walls of his body
Rendered helpless, they cannot help the sick and dying
And the difference between them is goneHow can we see clearly?
How can they see clearly if there's no evidence?
They believe when they see
Each day we live the differenceHeaven help us but they've already tried
And so we're left with one conclusion
Without Jesus, we are nothing more than liars
Filled with grand illusionHow can we see clearly?
How can they see clearly if there's no evidence?
They believe when they see
Each day we live the differenceYou ask me
How can we be free from this demise we're in?
I tell you, repentance
Repent from all this filthy sinHow can they see clearly if there's no evidence?
They believe when they see
Each day we live the differenceHow can they see clearly?
We live the differenceHeaven help us but they've already tried
And so we're left with one conclusion
