Elvis Lives

Subway to Sally

When a cold wind blows
and you don't kow where to go
baby don't be scared, don't be scared
in your darkest night
when nothin' is all right
baby don't be sad, don't be sadElvis is not dead
he comes and goes
in disguise he's on the roadout there on your own
you're feelin' all alone
baby don't you cry, don't you cry
on your longest day
you can find your way
baby don't be blue, don't be blueElvis is not dead
he comes and goes
in disguise he's on the road
