

52 and more to come  
 You pay the price for what you've done  
 They try to get rid of me  
 Why can't you just leave me be?

There's no place left to hide  
 I will defend what is mine  
 Don't try to run  
 I will hunt you down

Leave my turf  
 For I will eat you alive

I don't hate them, but they hate me  
 Why can't you just leave me be?  
 Can't see why they want me dead  
 They even price on my head

There's no place left to hide  
 I will defend what is mine  
 Don't try to run  
 I will hunt you down

Leave my turf  
 For I will eat you alive

(solo)

There's no place left to hide  
 I will defend what is mine  
 Don't try to run  
 I will hunt you down

Leave my turf  
 For I will eat you alive

Eat you alive
