

God Can Still Turn It Around

The Foster Triplets

Verse.1

Nothing left for you to say or do,
You've reached the end of the hope you've held on to,
At the point of desperation it looks like there's no way,
But you can never be too Broken and I know it's not too late

Chorus

God can still turn it around
He can hear your heart cry out
Maybe you can't see but I believe he's moving right now
God can still turn it around
God can still turn it around

Verse 2

You wonder how it ever got this far
You never dreamed your world would fall apart
The circumstance you're facing didn't take God by surprise
He's faithful and he's able to change the course of your life

Bridge

He makes mountains move he heals and he saves
He delights in the impossible and he rolls stones away...

Chorus
