

I Need a Good Woman Bad

[Earl Thomas Conley](#)

Make the best of some bad romances
Held on much too long to past mistakes
Always holding out for something better
Seems I'm either too early or a little too late And I need a good woman bad
To laugh when I'm happy, cry when I'm said
I know she's out there somewhere waiting for me
I need a good woman bad
One I can have without being had
If that ain't too much to ask I need a good woman bad Now I'm no stranger to taking chances
In fact that don't bother me at all
Cause I'm so tired of one night stand's love
I'm finally ready for a lifetime fall And I need a good woman bad
To laugh when I'm happy, cry when I'm said
I know she's out there somewhere waiting for me
I need a good woman bad
One I can have without being had
If that ain't too much to ask I need a good woman bad
