

Anytime of Night

Jesse Roper

Anytime of Night[Chorus]
Anytime of night, anytime of day
Well you can call on me baby, I wont push you away
Anything you need, anything at all
Ya you just ask me little darling, ya I will give you it all[Verse]
From the first time I saw you, ya I know you was alright
And from the first time I kissed you baby, I could've kissed you all night
And you asked me little darling, if you were more than just a girl
Well let me tell you something baby, you have changed my whole world[Chorus][Solo][Verse]
oh woman I said I love you, ya and there aint no more to say
because this feelings got me helpless, ya and I feel it everyday
and the more that I'm with you, oh I just got to say
youre my best friend little darling, and you prove that everyday[Chorus]
