

# Die You Fucks!

## Cancerslug

inside my mind is a place where everything is clear to me  
and if you want to take me out, im gonna take more than a few with me  
and in my mind i am free of your reality  
but i am forced to walk alone, for no kindred have i ever seen  
send me an angel  
i need to whipe the blood off on her wings  
and if she is able, i'll throw a load in her cumdumpster
