

Get Born Again

Alice in Chains

Sad suffering, I knew you when
Fair weather friend of mine
Try not to think, I merely blink
Hope to wish away the lies, I Can you protect me when I'm wrecked?
I'll pretend you're still alive, I yeah I choose the day one death and gray
Thick fog, I hide and smile
Clear all your sins, get born again
Just repeat a couple lies, I, lies, yeah Can you protect me when I'm wrecked?
I'll pretend you're still alive
I choose the day one death and gray
Thick fog, I hide and smile
