

# My Monkey

[Marilyn Manson](#)

I had a little monkey, I sent him to the country  
And I fed him on gingerbread, along came a cho cho  
Knocked my monkey koo koo and now my monkey's dead  
At least he looks that way, then again don't we all What I make is what I am  
I can't be forever I had a little monkey, I sent him to the country  
And I fed him on gingerbread, along came a cho cho  
Knocked my monkey koo koo and now my monkey's dead  
The poor little monkey What I make is what I am  
I can't be forever We are our own wicked Gods, with little G's and big dicks  
Sadistic, constantly inflicting a slow demise Big dicks, big dicks, big dicks I had a little monkey, I sent him to the  
country  
And I fed him on gingerbread, along came a cho cho  
Knocked my monkey koo koo and now my monkey's dead I had a little monkey, I sent him to the country  
My monkey, my monkey, my monkey  
My monkey, my monkey fought the fire
