

# Fragile

## Skunk Anansie

I've seen no fear  
Your purpose is clear  
Inside, in deep  
I quicken, my breathes, beBefore you implode my darling  
Before you expose you're here  
I see your disgrace, on right chance  
But you're fragile, you get broken  
You're still fragile  
And you shadow when you fallYou live, you learn  
Yours scratches, they burn  
Superficial, but deep  
I stand for, my freshes, beBefore you implode my darling  
Before you expose you're here  
I see your disgrace, on right chance  
But you're fragile, you get broken  
You're still fragile  
And you shadow when u fall
