

# Kiss You (feat.Nadia Ali)

## Iio

I'd wake up and make love to you if I had you  
I would touch you so much but I'm not allowed to  
What I hate is to wait but in this case I'm patient  
I'm discreet, I'm not weak, I just need the momentHe wants me, he wants me not  
I want everything he's gotIf I leaned over and tried to kiss you  
Would I be wrong after so long to kiss you?  
Would you pretend we're only friends if I kissed you?  
At least I can dream of you in a scene when I kiss youOn one hand we are friends  
But still my mind, it wanders  
Through the side streets and alleys  
I just keep growing fonderHe wants me, he wants me not  
I want everything he's gotIf I leaned over and tried to kiss you  
Would I be wrong after so long to kiss you?  
Would you pretend we're only friends if I kissed you?  
At least I can dream of you in a scene when I kiss youHe wants me, he wants me not  
I want everything he's got  
He wants me, he wants me not  
I want everything he's gotTo stop me is not easy  
Can't keep a lion from hunting  
I'm focused, I won't miss  
There's no control of some thingsIf I leaned over and tried to kiss you  
Would I be wrong after so long to kiss you?  
Would you pretend we're only friends if I kissed you?  
At least I can dream of you in a scene when I kiss youI kissed you, can I kiss you?
