

# That's What You Said

Phil Collins

I remember the night you weren't at home  
Had to work late is what I heard  
That's what you said  
I can never forget the way it felt  
You needed some time to work it out  
That's what you said  
And now I feel a fool  
'Cause late at night I call your name  
I'm wondering what for  
'Cause I've seen those other guys  
Sniffin' around your door  
Whatever happened to the words  
Lovers for all eternity?  
That's what you said  
Well I was your Romeo  
You were my Juliet eternally  
That's what you said  
And now I feel a fool  
'Cause late at night I hear your voice  
Calling out my name  
Oh, I know it's just a dream  
But every night's the same  
I carried a torch for you  
Through the thick and thin  
You know it don't seem right  
That I won't see you again  
No, no  
Late at night I call your name  
I'm wondering what for  
'Cause I keep seeing those other guys  
Sniffin' around your door  
I carried a torch for you  
Through the wind and rain  
I'll never forget you  
But I won't see you again  
No, no  
I thought your friends all liked me  
I thought I fitted in just right  
That's what you said

Soon I'll be gone and you'll be free  
You can go find the things that you want  
That's what you said  
And I won't feel a fool  
Late at night I still call your name  
I'm wondering what for  
'Cause I keep seeing those other guys  
Come sniffin' around your door  
What for?
