

Wallflower

Splender

Two more days is all you ever wanted

Paint your face it's time to be social

Standing on the edge of your feeling so special

Looking at the center of a downward circleIt's a side we offend, it's the work of a fool
It's the sign of a freak, uncoolNobody understands wallflower, nobody gives a damn wallflower

Cannot get into you look what you made me do, down, I'm so down

If you kiss the dirt well then you'd see my reflectionLook around and I start to laugh

 No more need for photographs

 Was there something you meant to say

 As I walked away?It's the way we collide, it's the way we connect

It's the way we confuse, so rudeNobody understands wallflower, nobody gives a damn wallflower

 Cannot get into you look what you made me do, down, I'm so down

If you kiss the dirt well then you'd see my reflectionNobody understands wallflower, nobody gives a damn
 wallflower

 Cannot get into you look what you made me do down, I'm so down

If you kiss the dirt well then you'd see myNo one will want from you, haven't you got a clue?

 Cannot get over you look what you put me throughDown, I'm so down

 If you kiss the dirt well then you'd see my reflection

 Down, I'm so down

 If you kiss the dirt well then you'd see my intentions

 Down, I'm so down

 If you kiss the dirt well then you'd see my aggressions

 Down, I'm so down

 If you kiss the dirt well then you'd see my pretensions
