

Don't Wake Me Up

[Lianne La Havas](#)

Don't wake me up
I'm trying to find you
Oh, as I walk through
You're hiding in the corners of my mind
Never fear, I'll be close behind
My only love, I'll follow behind you
Won't go without you
I know your love weighs heavy on my heart
But you are my only counterpartChorus:
Will I know
Why I lost control
Of my heart and soul
Because I know you,
I can't reach through
(Oo aah)I made mistakes but they're safely behind me
Now I can run free
The only true love I have ever known
Into yours my life has been thrown
Still early days so
It's just the beginning
Sing when you're willing
They say somethings are better left unsaid
But I'd take my life to stay in your bedChorus...
