

# Say Something

## Dr. Dog

Long distance, no need to shout  
Close quarters, ain't talkin' out loud  
And I gotta know  
All over your open mouth  
Words hang like they're just hanging out  
But I gotta know

Where are you going crazy  
In your mind or in everybody's mind?

Cold shoulders have run out of luck  
Who knows what they're runnin' from  
I gotta know  
You're holding up an endless line  
Putting pressure on my precious time  
But I gotta know

Where are you going crazy  
In your mind or in every inch of your body?  
Say something
