

# Lights Out

## Sonic Youth

[Thurston]

She scans the room,  
for a star to consume  
When eye contact is made,  
I suggest, son, you fix your grave'Cause it's lights out for you  
Lights out for you  
There's not a hell of a lot you can do  
It's lights out for youHe rolls his eyes  
at the thought of paradise  
But when he makes that insect sound,  
then it's time, girl, for you to leave town'Cause it's lights out for you  
Lights out for you  
There's not a hell of a lot you can do  
It's lights out for youShe scans the room,  
for a star to consume  
When eye contact is made,  
I suggest, son, you fix your grave'Cause it's lights out for you  
Lights out for you  
Lights out for you  
Lights out for you  
Lights out for you  
Lights out for you  
There's not a hell of a lot you can do  
It's lights out for you
