

# Close The Door

## The Two Things In One

I'll ask you once, look in my eyes  
Is it gonna work is my advice  
Have a little trust in me, I love you  
Baby, can't you see? It's a lie and I don't care Have a little faith it's only fair  
That you trust in me I love you  
And you'll always be here A piece of my heart  
My peace of mind that's for sure  
'Til you close the door to giving to giving Don't call it quits, it would be a shame  
Our little fits would be to blame  
I'd give all of me and my precious time  
I'm not afraid to give and what's mine is mine I'll ask you once, look in my eyes  
Is it gonna work is my advice  
Have a little trust in me I love you  
And you'll always be, oh A piece of my heart  
My peace of mind that's for sure  
'Til you close the door to giving, to giving  
'Til you close the door to giving Close the door to giving  
Close the door to giving  
Close the door to giving
