The Pressure Is On

Hank Williams, Jr.

I got someone at home, don't know whats going on
Thinks I love her and her alone and the pressure is on
I got a new love you see, she does new things to me
We sneak our love you's on the phone and the pressure is onAnd it puts pressure on a man if he ever lets his heart call his hand
He ain't no rolling stone, but the pressure is on
Feel like your ten thousand feet down under the sea
And its crushing all your bones and the pressure is onThe trains I ride in my dreams
Run on the pressure of the steam
Lord, I could pull one a mile long 'cause the pressure is on
Lord, I could pull one a mile long 'cause the pressure is on
The pressure is on, the pressure at home
