

The Pressure Is On

Hank Williams, Jr.

I got someone at home, don't know what's going on
Thinks I love her and her alone and the pressure is on
I got a new love you see, she does new things to me

We sneak our love you's on the phone and the pressure is on
And it puts pressure on a man if he ever lets his
heart call his hand

He ain't no rolling stone, but the pressure is on
Feel like your ten thousand feet down under the sea
And its crushing all your bones and the pressure is on
The trains I ride in my dreams
Run on the pressure of the steam
Lord, I could pull one a mile long 'cause the pressure is on
Lord, I could pull one a mile long 'cause the pressure is on
The pressure is on, the pressure at home
