

Guitar Gangsters Cadillac Blood

Volbeat

There's a Cadillac out in the dark
There's a guitar gangster lighting a smoke
And he feels the night, and he feels the fireDriving into the city unknown
Ten small houses is what he face in the cold
And he feels the night, can you feel the fireGuitar gangsters and Cadillac blood
They came from the road and out of the dark
Went into a place even darker
Guitar gangsters and Cadillac bloodWalking into a place called The Bar
People looking like a ghost has arrived
And he feels the eyes, can you see the eyesGuitar gangsters and Cadillac blood
They came from the road and out of the dark
Went into a place even darker
Guitar gangsters and Cadillac bloodDear ladies, gentlemen, don't be afraid
We are here to ease your pain
Let it all start with a song
I'm sure we'll get alongGuitar gangsters and Cadillac blood
They came from the road and out of the dark
Went into a place even darker
Guitar gangsters and Cadillac blood
