

In Step

Greg Howe

Never took a scene check

Never were a reject

Always lookin perfect

Now you aren't so in step

in step

in step

in step

You had your photograph, in a magazine

Such a pretty boy, only nineteen

But now your twenty-three and it's all gone now

you ain't all that, you wanna be somehow

Maybe it was only a dream!

You just thought you could be anything that you wanted to be

Sadly, it all went wrong so

Never took a scene check

Never were a reject

Always lookin perfect

Now you aren't so in step

in step

in step

in step

Still just go to the same old clubs

But the new kids have got one above

Music tastes change like the wind

You're doin now what's already been

And you still think that you're so it

Cause you know so and so, and you made a hit

But you can't hear it being played

Cause you my friend have had your day

Never took a scene check

Never were a reject

Always lookin perfect

Now you aren't so in step

in step

in step

in step
