Cyanide

Deathstars

Cyanide
Drink the cyanideThis is the hand that will blind your eyes
And split your spine
This is the blade that'll visit your flesh
And release the wine
(Play)You play with toys that have triggers
And you hear how the lead moves near
(Play)
You play with razors and it hurts
It hurts as you face your fearsSo face the dark and I'll teach you
About fire in the blink of an eye
(Now drink the cyanide)
The worlds collide and you know it's pure filth
That I hideOn these plains there's a burning ruin
That must be found
On these plains there's a demon that sleeps
It must be unbound
(Run)You run for the borders
Where epistles burn in the arms of man
(Run)
You run among bodies and they scream
They scream to bite God's handSo face the dark and I'll teach you
About fire in the blink of an eye
(Now drink the cyanide)
The worlds collide and you know it's pure filth
That I hideSo face the dark and I'll teach you
About fire in the blink of an eye
(Now drink the cyanide)
The worlds collide and you know it's pure filth
That I hideNow drink the cyanide
So face the dark and I'll teach you
About fire in the blink ofWhen the dark does what the dark does best
It's darkness
Let the dark do what the dark does best
Let there be darknessSo face the dark and I'll teach you
About fire in the blink of an eye
(Now drink the cyanide)
The worlds collide and you know it's pure filth
That I hide
