

Downfall

Yeah Whatever

how can i speak when you shut me up
how can i dream when you wake me up
how can i breathe when i've had enough
how can i be when i've lost it all

she is my downfall
she made me lose it all
she is my downfall
she made me lose it all

how can you see when you've built this wall
how are you wrong when you have no faults
why do you cry when you feel this way

why do you lie to me
she is my downfall
she made me lose it
she is my downfall
she made me lose it all
she is my downfall
she made me lose it all
she is my downfall
she made me lose it all
