Plastic World

Naked Aggression

It's not my fault that I'm fucked up
I'm just a product of a selfish world
My whole life I've been an outcast
Now I don't care, I don't want to fit in any morePeople are so quick to judge me
I do not care I will not change for them
There's so much pressure to conform
IÃµd rather be dead then act fake and end up just like themWe live in a plastic world where
People like us seem to fall through the cracks
I'm sick of people putting me down
Cause I don't live up to their fucked up standards
I have created my own world
There's no rules I can be myself
I don't care if they don't like me
I don't care if they don't like me- no!It's not my fault that I'm fucked up
I'm just a product of a selfish world
My whole life I've been an outcast
Now I don't care, I don't want to fit in any more
