

But Not for You

Field Music

Making up is easy now
But not for you
A look that says
That's what I want
It's not for you
All the jealousies we have worn out
They're not for you
And your friends all out of time
For you
We think back to years ago
Felt like we're all together
But we always went home
After the quiet nights
After the bars rolled down the doors
And we share a taxi to stay far from
Some sticky end
At least that's what you said
Growing up is easy now
But not for you
A look that says
That's what I want
It's not for you
All the jealousies we have worn out
They're not for you
And your friends all out of time
For you
Did we even change at all?
Oh, was it for the better
When you wind up alone?
People seem closer now
Even when they're not together
Even when they couldn't know
They'll grow apart just the same
Getting up is easy now
But not for you
A look that says
That's what I've got
It's not for you
All the jealousies we have worn out

They're not for you
And your friends all out of time
For you
