

# Melody (feat. James Blunt)

## Lost Frequencies

Hey melody  
Every night you play me something sweet  
And when I'm down, you always change the key  
I need you now, my heart has lost the beat  
And I'm counting on your love, hey melody  
We both could use a reason just to smile  
So let me be your harmony tonight  
Every note you hit cuts into me  
So let me hear your love, sing  
Let me hear your love, sing  
So let me hear your love, sing  
So let me hear your love, sing  
Let me hear your love, sing  
Hey melody  
Every night you play me something sweet  
And when I'm down, you always change the key  
I need you now, my heart has lost the beat  
And I'm counting on your love, hey melody  
We both could use a reason just to smile  
So let me be your harmony tonight  
Every note you hit cuts into me  
So let me hear your love, sing  
So let me hear your love, sing  
Let me hear your love, sing  
So let me hear your love, sing  
So let me hear your love, sing  
Let me hear your love, sing
